-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1746

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 3 and 7-9 are, rejected under 35 U.S.C. 102(b) as being clearly anticipated by either UK'330 (U. K. 2 319 330) or UK'095 (U.K. 2 326 095).

Re claim 1, note that UK330 and UK'095 is cited disclosing a spray manifold (9 in UK'095 and 14 in UK'330), pump (as at 10 in UK'330 and as at 100 in UK'095) and a controller (22 in UK'220, see page 9, 6-11 and see page 15, last line in UK095).

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over either UK'095 or UK'330.

Claim 3 defines over the applied prior art only in the recitation of the disinfectant.

Nonetheless, to employ one disinfectant over another is deemed an obvious matter of design and substitution of equivalents.

5. Claims 4-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over the either UK'330 or UK'0895 in view of Veith. Claims 4-6 define over that applied prior art only in the recitation of the filter, and one-way valve. Veith (see fig. 8) is cited disclosing the filter and filter in a wash device. It therefore would have been obvious to one having

Art Unit: 1746

ordinary skill in the art to modify the device of either UK'095 or UK'330, for the purpose of regulating the fluid flow thereby ensuring proper exposure of the cleaning fluid of the system.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. In Trip, Yono et al. Lin, UK'175, UK'688, Jacobson Japan'949 and KR'901, note the disinfecting means.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to FRANKIE L. STINSON whose telephone number is (571) 272-1308. The examiner can normally be reached on M-F from 5:30 am to 2:00 pm and some Saturdays from approximately 5:30 am to 11:30 am.
